

S1 Appendix. Participant questionnaire/evaluation instrument (blank)

Blank reconstruction of the two closely related instruments used at the two in-person training sites. No respondent answers are included. The two forms shared a common set of items and a common willingness-to-accept / willingness-to-pay (WTA/WTP) elicitation, and differed only in a small number of site-specific items and in their knowledge-assessment topics. Bracketed terms (e.g., "[farming/ranching]") indicate site-specific wording. Response options are shown blank.

Module 2: Willingness-to-Accept / Willingness-to-Pay elicitation (common to both sites; voluntary)

In this section, please circle your **“Willingness-To-Accept”** to leave before the training begins in **A** and write down your **“Willingness-To-Pay”** for today’s training in **B**.

A: If you were asked to leave today’s training without receiving any educational presentations or materials, what is the lowest amount you are **Willing-To-Accept to leave before any training begins?**

(Please notice, if you are the one selected from the drawing, you will receive the amount you choose but you will be required to leave the workshop immediately with the compensation. Your selection of one of the 7 amounts below will not be revealed to anyone in today’s training.)

There are 2 parts for the drawing:

- (1) There are 49 tickets in the first drawing. 20 tickets with \$25, 10 with \$50, 7 with \$71.5, 5 with \$100, 4 with \$125, 2 with \$250, and 1 ticket with \$500. A single compensation amount will be randomly drawn among the 49 tickets.
- (2) After the first drawing, if say \$100 is the compensation amount drawn, we will then perform another drawing among all those who selected \$100 as their “Willingness-To-Accept.” If you are the one selected under this second part, we will provide you the compensation you selected, but you will be asked to leave immediately.

In general, higher Willingness-To-Accept values are less likely to be drawn and less likely to require you to leave before the training begins. Please note that “A” and “B” in this box are voluntary and that your participation will help quantify the monetary value of trainings like this. Please participate by identifying the lowest \$ amount below that you would be willing to accept in exchange for leaving today’s class immediately.

Part A.	Please circle the lowest dollar amount in compensation below that you would be willing to accept in order to forego attending today’s training AND write this amount on the ticket to hand in (circle only one \$ amount).						
Dollars in compensation you will accept to leave today’s training. (circle/write only one \$ amount).	\$25	\$50	\$71.5	\$100	\$125	\$250	\$500
	<i>(write the same \$ amount on your ticket that is circled in row above)</i>						
# of Tickets (49 total) for each \$ Amount in row above	20	10	7	5	4	2	1

If your ticket is drawn, please realize that you will receive the monetary compensation you selected **AND** will also need to leave without receiving the educational presentations and materials of today’s training. No one will know how much you “bid” for your compensation needed to leave today’s class as the dollar amounts will not be made public. The expected payout for \$25 ($20/49 * \$25 = \10.20) equals that for \$500 ($1/49 * \$500 = \10.20) and the other amounts. The expected payout is somewhat less when more individuals select a given \$ amount as a drawing is made among all individuals that selected one of the 7 dollar amounts above. Again, the dollar amount is determined from drawing one dollar ticket among the 49 total tickets for each dollar amount.

Part B: If you were required to pay to attend today’s training, what is the most you would be **Willing-To-Pay? \$ _____**
